

Ahead International Ministries

Greetings!

Warmest greetings to you on this great day. I want to take a moment to thank you for your support and prayers for the ministry of Ahead International. With your help, we have been blessed to see much progress in Liberia while gearing up for additional footings in new and exciting directions.

This email will give you a quick window into some recent activities involving our New Life Bible Church ministry. This is by far, the fastest growing grassroots church in Monrovia today with membership approaching 2000. These galliant men and women are true champions of the cross and as you will see, God is blessing their work greatly. They are able to see these results because of your prayers and support and I want wish to echo their thanks to you.

We pray that you will be encouraged by the report as I am. Thanks for your continued partnership.

Sincerely,
Oscar L. James
Ahead International

"THERE IS JOY IN MEETING JESUS"

A MUSLIM CONVERT CRIES OUT

Siafa Vivi a Muslim who gave his life to Christ and confessed Jesus as lord and savior says there is joy in meeting Jesus. Saifa made the cry in a Sunday service at the new life bible church in Jacob town.

According to Saifa there is much joy when you know Jesus as your personal lord and savior.

" what god has planned no man can changed it" the Muslim convert said adding that he is from a Christian family but became Muslim when he moved with his mother in Kolahun in Lofa county to stay with his step father who is a Muslim.

"I have found my right place and I am grateful that it is now that I am no longer young ".

Saifa has since been taken care of by the new life bible church as a family. He is asking the ministry for support and empowerment to enable him meet his challenge that lies ahead with his Muslim family.

Mercy's Story

ANOTHER TESTIMONY TO THE GLORY OF GOD

Mercy Harde, alias Mercy Nelson, a child less than two years was a victim of a 3rd degree caustic burn. She was firstly taken at the Redemption Hospital where she was admitted for a week and later referred to the JFK Hospital. Mercy spent over a month at JFK with the least hope of improvement so much deterioration. The only option was to have little Mercy discharged but her parents did not see it as the end of the road. They made a final stop at the Cynthia Nelson clinic where little Mercy was accepted. She experienced terrible pains by the day and could neither eat nor sleep. Almost everyone could not stand the sight of her wound especially during her daily dressings and hearing her scream which echoed around the clinic. With the expertise of our Officer-in-charge (Donald A. Ballah) and his team of medical assistants, Mercy's recovery process was something beyond description but a miracle. In barely two weeks little Mercy had undergone vast improvement - could eat, play, not cry and sleep quietly through the night. It was then her name was changed to Mercy Nelson by her parents who were so overjoyed and owed the existence of their daughter to the Cynthia Nelson clinic. At the completion of the second week, little Mercy Nelson was discharged. She now visits the clinic every two days to have her dressing changed. She is so choppy, loving and now happy. Thank God for His intervention.

After School Tutorial Class Launched

AHEAD LAUNCHES STUDY HALL FOR CHILDREN

In an effort to help nurture young school going age children whose parents are jobless, the Rock Hill congregation embarked upon a partially free tutorial program. Classes commenced in March 2010 with a total enrollment of 183 students. However, 125 are regular attendants. Classes run three times weekly (Monday, Wednesday and Friday) from Nursery to Grade 5.

The PROGRAM currently has four teachers including Pastor Richard Saah who is the founder.

About Ahead International

Ahead International promotes the self-sufficiency of the third-world church so that third-world nations can be evangelized by indigenous Christians and the third-world church can become a missionary sending agency.
